Alex:

See message below. We will need to run SPLP on the grids identified at final depth. I don't want to run these until we are sure we have met final depth. It maybe that we send the sample to the lab along with our cleanup criteria and if the cleanup criteria is met then they run SPLP for the parameters listed.

You will need to talk with Jeff Wright to set this up and talk through it and then we can discuss.

Thanks
Gary Moore

Gary:
Minimum SPLP analysis for each loc (if possible):

FJD04-01: Manganese, Silver
FJD04-02: PCBs, Manganese, Silver
FJD04-04: PCBs, Manganese, Silver
FJD04-07: PCBs, Cadmium, Manganese, Silver
FJD04-08: PCBs, Manganese, Silver
FJD03-06: PCBs, Manganese
EAS07: PCBs, Manganese

(Also, thank you for the unit-specific demo photos!)
Ellie

Elle:

Please let me know the analytes you want me to run SPLP on for the locations that you identified based upon our analytical results.

Thanks
